WHAT'S NEW IN THE EIV SYSTEM 8.0 RELEASE FOR MF USERS?

Below is the list of changes included in the EIV 8.0 release.

Function	Description
Security	
WASS - User Role Changes	• New role called Office of Inspector General (OIG) for agents requesting access to, and the use of, EIV data. • New external role called Contract Administrator User (CAU) whose role will mirror that of the external Housing User with the HSU role. • New external role called Contract Administrator Coordinator (CAC) whose role will mirror that of the external Housing Coordinator with the HSC role and is responsible for assigning the CAU role to their users' contracts in Web Access Secure Systems (WASS) and certifying and expiring their users EIV access for contracts assigned.
WASS – EIV Other Security Changes	• Disallow multiple sessions for a MF External user. This is achieved by killing the first session when a user initiates a second session. User in the first session is notified by a message about being logged off due to the multiple logins.
EIV Legal Warning Page for MF Housing Program Users	• The second box for a user with either HSC role or HSU role will be revised to read as follows: "Owners and management agents (O/As) must have a valid form HUD-9887 that is signed by each household member who is at least 18 years of age, and each family head, spouse, and co-head regardless of age, in order to view the data contained in EIV. Service bureaus must verify with the Owner that they have a valid form HUD-9887 that is signed by each household member who is at least 18 years of age, and each family head, spouse, and co-head regardless of age, in order to view the data contained in EIV." • The second box for a user with either CAC role or CAU role will be read as follows: "Contract administrators (including HUD staff) overseeing O/A operations need not have a valid form HUD-9887 in order to view EIV data. However, they must affirm that they will verify that O/As have valid form HUD-9887s on file when performing monitoring reviews of O/A operations."
Verification Reports	

Multiple Subsidy Report	The Multiple Subsidy Report provides the capability to list multiple subsidy data for 'All' Projects or for 'All' Contracts at HQA, OIG and HDK levels.
Deceased Tenants Report	New report called "Deceased Tenants Report" which will provide the capability to view all active tenants in the Tenant Rental Assistance Certification (TRACS) system who are deceased as per the Social Security Administration (SSA) database. This new report will show statistical information concerning households with deceased household members at the HQ level and at Project, and Subsidy Contract levels.
Audit Reports	
Tenant Data Access Report	The Tenant Data Access Report provides the new options to search by User ID (for external and internal users) and by Tenant Last Name.
User Administration	
EIV User Access Request – Authorization Requests	The "Authorization Requests" will be accessible by users with CAU role. Users with the CAU role will submit their EIV User Access Authorization Form (UAAF) requests online for recertification and termination to their Contract Administrator Coordinators with the CAC role for approval.
EIV User Requests Report for CAC Users (EIV-MF Contract Administrator Coordinators)	Users with the CAC role will approve or deny the CAU user's UAAFs or put them on hold within EIV until such time as they are ready to approve or deny the user's UAAF request.
EIV Coordinator Access Request – Authorization Form	The "Authorization Form" will be accessible by users with HSC or CAC role. Users with the HSC role code or CAC role code will submit their EIV Coordinator Access Authorization Form (CAAF) requests online for recertification and termination to the Help Desk Personnel with the HDK role for approval.
User Certification	• Users with HQA role will certify EIV access for users with the Office of Inspector General (OIG) role • Users with HDK role can view, certify and expire EIV access for users with the HSC or CAC roles • Users with HSC role are now restricted to perform user certification of users with HSU role within their assigned jurisdiction. • Users with CAC role are now allowed to perform user certification of users with CAU role within their assigned jurisdiction. • EIV prevents O/As from seeing users in User Certification that are under their CAs' control and prevent CAs from seeing users in User Certification that are under the O/As' control.
User Maintenance (Only available to users with HQA and HDK user roles)	User Maintenance now provides reset functionality to clear the user expiration date field and display the user expiration History at the bottom of the report

Coordinator Cert Report	Users with HSC and CAC roles are provided with a new report to display a complete list of project(s)/ contract(s) assigned to the Coordinator along with the Certification Status and date of Certification and Effective to date.
